

UNIVERSITAS GADJAH MADA
FAKULTAS BIOLOGI

Moeso Suryowinoto Indonesia Biodiversity Center

Moeso Suryowinoto Indonesia Biodiversity Center (MSIBC) at the Faculty of Biology, Universitas Gadjah Mada, is dedicated to advancing research on Indonesia's rich biodiversity. The center focuses on taxonomy, biotechnology, ecology, and the conservation of the nation's biological resources. It is equipped with state-of-the-art facilities to support high-quality and impactful scientific research.

"A national hub for biodiversity studies in Indonesia, equipped with advanced facilities to support conservation research."

Main Research Equipment

Freeze Dryer
CHRIST/ Alpha 1-
2Cbasic

Thermal Cycler
Benchmark/ TC 9639

Refrigerated Centrifuge
Thermo Scientific

Orbital Shaker
Yih Der / TS-560D

Analytical Balance
OHAUS / Pioneer

Oven
Mettler

Laminar Air Flow
Robust

Fume Hood
Robust / FHP-125
